

FIPFG silicone compression gasket demonstrator

Elkem, Bluesil™ RT Foam 3244 A&B Technology

Benefits:

- An “environmental seal” (sealing against ambient air, splashed water, dust, moisture)
- A cost-effective sealing solution (compared to preformed gaskets / foam tapes)
- Fast-cure
- Low sealing force / low modulus
- To bridge at High tolerance gaps
- Component sound and vibration dampening
- An excellent temperature insulation with a very low thermal conductivity coefficient
