

Transforming
performance of
**Adhesives &
Sealants**

IMERYS

Adhesives & Sealants

IMERYS leads the field
in the development of minerals
for the adhesives, sealants,
and plastisols industries.

Socal® & Winnofil®

Wide range of benefits from rheology modification to tensile strength enhancement, storage stability improvement, multi-substrate adhesion and stone chipping resistance

ImerSeal®

Good adhesion properties and improved tensile and elongation at break while keeping low viscosity and low modulus

Polestar®

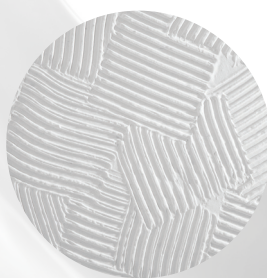

Maximize filler loading and reinforcement

Nyad®

Improve mechanical reinforcement

ImerFlex™ HAR 20

Improve barrier properties and matting effect

PolCarb™ & ImerCarb™

Maximize filler loading and reduce formulation costs

IMERYS has taken every possible care to ensure that the information contained in this document is correct. It is however presented without warranty of any kind and IMERYS assumes no liability with respect to its use. No licence to any intellectual property right is granted or implied. Statements or suggestions concerning possible use are made without representation or warranty expressed or implied that any such use is fit for purpose or free of patent infringement and are not to be construed as suggestions or inducements to infringe any patent.

Structural Adhesives

- Special Acrylics
- Polyurethane
- Epoxy

Water-Based Adhesives

- Dextrine, Starch
- Polyvinyl Alcohol
- Polyvinyl Acetate
- Others

Elastic Bonding

- Hybrid
- Silicone
- Polyurethane
- Polysulfide

Sealants

- Putty
- Butyl Sealants & Strips
- Acrylic Sealants
- Latex Sealants

Plastisol

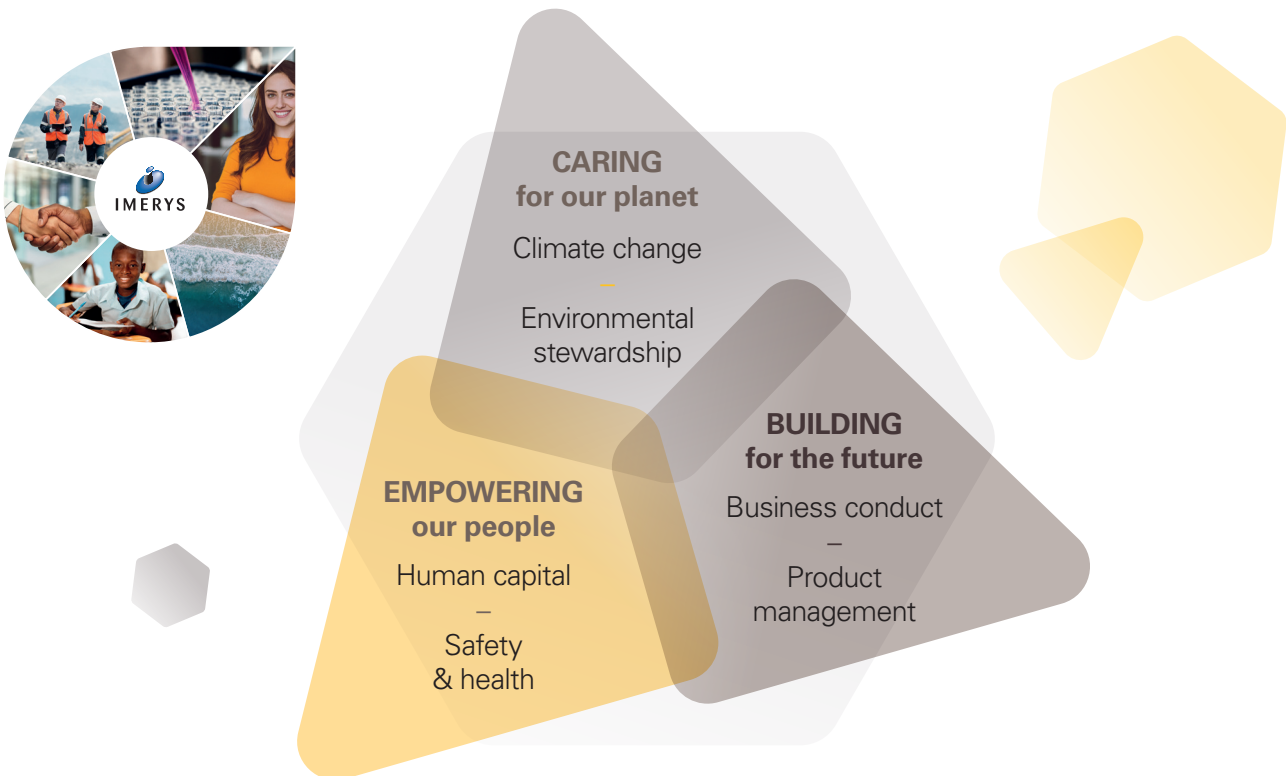

- PVC Under Body Coating & Seam Sealer
- Liquid Applied Sprayed Dampers

Integrating sustainable development into all we do

At Imerys, we respect the world in which we operate. We are committed to our role in society, to meeting our obligations to the countries and communities in which we do business, as well as to acting as responsible environmental stewards.

Imerys is your partner for sustainable solutions

About Imerys

The world leader in mineral-based specialties for industry, Imerys delivers high value-added, functional solutions to a diversified set of industrial sectors, from processing industries to consumer goods. The Group draws on its knowledge of applications, technological expertise and its material science know-how to deliver solutions based on the beneficiation of its mineral resources, synthetic minerals, and formulations. These contribute essential properties to customers' products and performance, including refractoriness, hardness, conductivity, opacity, durability, purity, lightness, filtration, absorption and repellency. Imerys is determined to develop responsibly, in particular by fostering the emergence of environmentally friendly products and processes.
