

The background of the top half of the page is a close-up photograph. On the right, there is a silver metal lid of a paint can, which is open, revealing a dark blue liquid inside. To the left of the lid, a paintbrush with a wooden handle and a metal ferrule is visible. The brush head is partially obscured by the lid. The background is a soft-focus image of a color calibration chart with various shades of blue and white.

BODO MÖLLER CHEMIE

Engineer chemistry

Professional solutions for
coatings & construction materials

Raw materials for

BODO MÖLLER CHEMIE is a specialist for coatings applications in many industries and offers raw materials like resins, additives and pigments for architectural paints, wood finishing, industrial and automotive coatings, printing inks, floor coatings, construction adhesives and sealants, including powder coating systems.

Along with our broad product portfolio, we offer a unique full-service package: Our Coatings Competence Center includes a modern Polymer System House and regional laboratories to support our customers in formulating optimized coating systems.

CASE

Coatings, Adhesives, Sealants, Elastomers

Raw materials for coatings

Resins

Acrylic resins

Aldehyd resins

Alkyd resins

Amino resins

Dispersions

Epoxy hardeners

Epoxy resins

Isocyanates

Monomers

Polysilazanes

Polyurethane resins

PVC-resins

Reactive diluents

Redispersible powders

Silicone resins

Unsaturated polyesters

Urea resins

UV curing resins

Vinyl ethers

Vinyl ester resins

Additives

Biocides

Catalysts & crosslinkers

Cellulose ethers

Defoamers

Flame retardants

Light & thermo stabilizers

Open time prolongers

Photoinitiators

Plasticisers

Rheology additives

Slip & leveling agents

Surfactants

Waxes

Wetting & dispersing agents

Pigments

Anti-corrosion pigments

Conductive & anti-static pigments

Effect pigments

Extenders

Fillers

Infrared reflective pigments

Laser marking pigments

Matting agents

Optical brighteners

Organic & inorganic pigments

Pigment preparations

Titanium dioxide

Surface technologies

Aqueous cleaning agents

Paint Stripper/Remover

With a broad portfolio of resins, additives and pigments, BODO MÖLLER CHEMIE can help manufacturers meet their specific application needs like weather resistance, corrosion protection, UV protection, scratch resistance, long-term durability, emission reduction and many other properties. We focus on innovative solutions that enhance performance, convenience, and cost-effectiveness.

Architectural paints

Water-based decorative coatings for interior and exterior use

Construction materials

Protective and maintenance coatings, floor coatings, building adhesives and sealants

Industrial coatings

Paints, corrosion protection systems and cleaners for industrial production

Automotive & transportation

OEM and refinish coatings and cleaners for vehicles

Printing inks

Inks, primers and varnishes for printing and packaging

Wood finishing

Solvent- or water-based wood varnishes

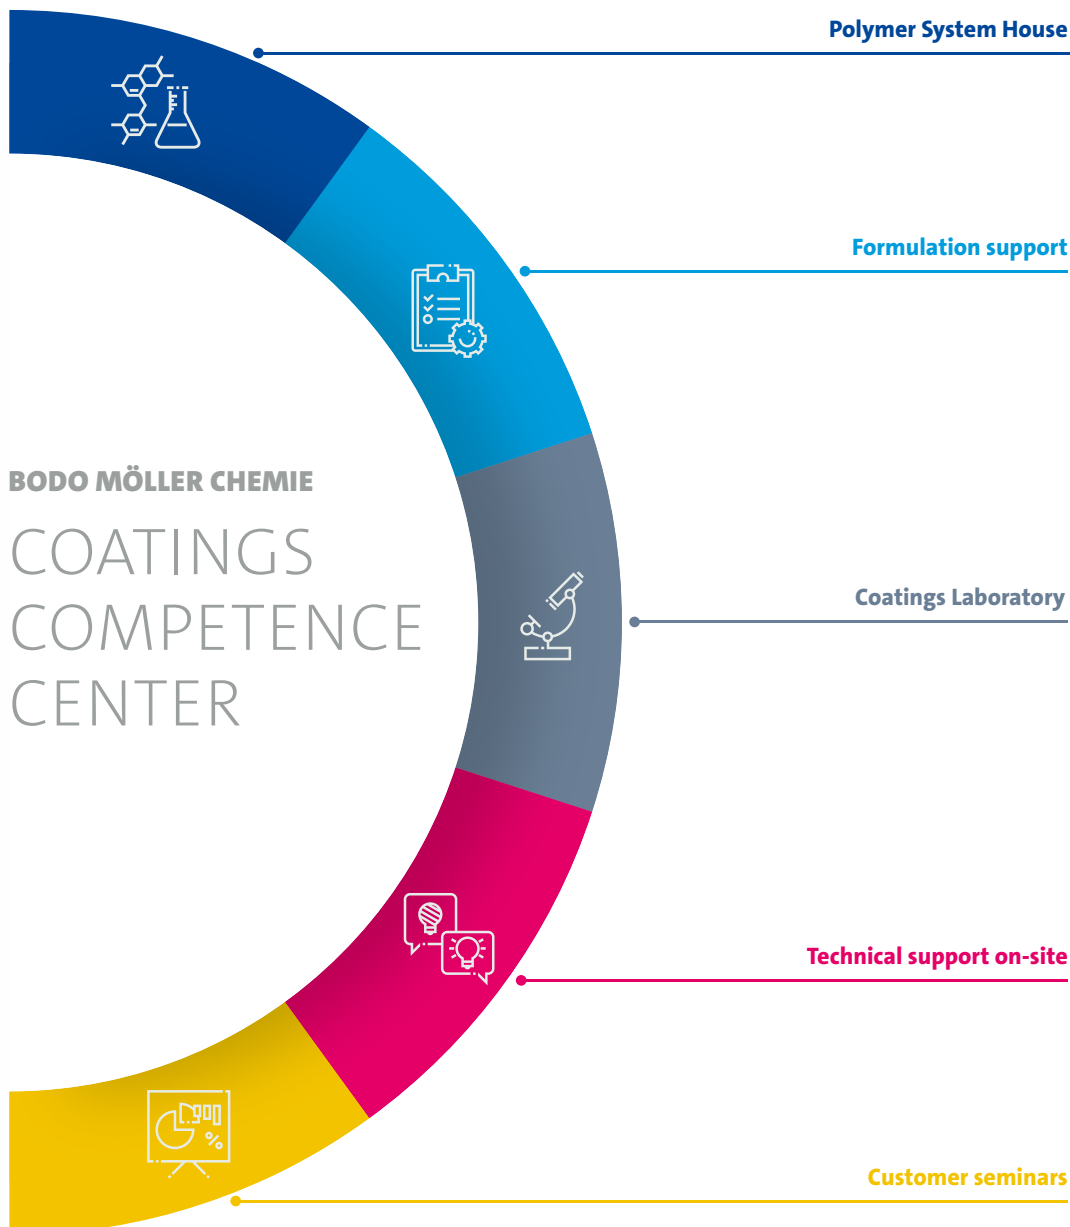

Powder coatings

Powder coating systems and cleaners for metal components

Application technology center

With our **Coatings Competence Center**, we offer our customers a unique full-service range of coating technologies. We combine the technological solutions of market leaders and many years of experience in process and application technology under one roof. Our coatings specialists will advise you on-site and support you in formulating your coating systems with our modern coating laboratories. We also impart extensive product and application knowledge to our customers through individual seminars and trainings.

In our **Polymer System House** with its state-of-the-art production facilities and laboratories, we carry out customer-specific product adaptations regarding color, viscosity and reactivity of polyurethanes, epoxies and silicones in compliance with international standards.

QUALITY & SAFETY

ISO 9001 Quality management

ISO 14001 Environmental management

ISO 45001 Occupational health & safety
