

**BODO MÖLLER
CHEMIE**

Future mobility
solutions and technologies

Functional materials

BODO MÖLLER CHEMIE is a global full-line supplier for future mobility and provides a wide range of high-performance products. E-mobility applications demand advanced performance encapsulants, gap fillers, adhesives and sealants. Thermally conductive materials optimize the heat management and ensure higher performance and extended lifetime of electrical and electronic components.

Our adhesives, sealants, insulating resins encapsulants enhance the performance of motors, batteries, electrical control units, wiring harnesses, connectors, inverters, converters, sensors (ADAS), switches and EV-charging infrastructures. With our carbon fiber rovings and resin systems for wet and towpreg filament winding we offer reliable solutions for the production of hydrogen pressure vessels for the automotive and transportation industry.

for future mobility

Product selection

Adhesives, sealants & thermal management materials

Araldite® Acrylic adhesives (2C/No-Mix)
Araldite® Epoxy adhesives (2C)
Araldite® Low odor acrylic adhesives (2C)
BETAFORCE™ Semi-structural polyurethane adhesives (2C)
BETAFORCE™ Structural polyurethane adhesives (2C)
BETAFORCE™ TC Thermally conductive polyurethane adhesives
BETAMATE™ Structural epoxy adhesives (2C)
BETATECH™ Liquid gap filler (1C/2C)
BlueSil™ RT FOAM for sealing and gasketing (2C)
CeraPUR® Polyurethane foam gaskets (1C)
Pactan® Silicone foam gaskets (2C)
Teroson® Butyl elastomer tapes

Composite materials for battery

AksaCarbon RForce™
AksaCarbon Textiles
Araldite® / Aradur® Warm curing epoxy systems
Araldite® Fire resistant systems
Araldite® Thermal resistance resins
Porcher Carbon rovings
Voratron™ Structural polyurethane foam (2C)

Composite materials for hydrogen infrastructure

AksaCarbon Rovings
AksaCarbon Towpregs
Araldite® / Aradur® Wet filament winding epoxy resin systems
Araldite® / Aradur® Towpreg epoxy resin systems

Insulating resins for e-motors

Araldite® Epoxy impregnating resins for casting
Araldite® Epoxy impregnating resins for dip impregnation
Araldite® Epoxy trickle resins

Encapsulants for batteries, e-motors, sensors, electronic control units

AksaCarbon RForce™
Araldite® / Aradur® Epoxy encapsulants (1C/2C)
Arathane® Polyurethane encapsulants (2C)
BlueSil™ ESA Silicone encapsulants (2C)
Voratron™ Potting

Solutions for charging infrastructure

Araldite® Adhesives
Araldite® / Aradur® Epoxy encapsulants (1C/2C)
Arathane® Polyurethane encapsulants (2C)
BERGQUIST® BOND-PLY Thermally conductive adhesive tapes
BERGQUIST® GAP PAD® Pads
BERGQUIST® Gap fillers
BERGQUIST® HI-FLOW Phase change material (pads)
BERGQUIST® LIQUI-BOND Thermally conductive adhesives (liquids)
BERGQUIST® SIL PAD® Thermally conductive insulators
BETAFORCE™ TC Thermally conductive polyurethane adhesives
BETATECH™ Liquid gap filler (1C/2C)
LOCTITE® ABLESTIK Thermally conductive adhesives
LOCTITE® ABLESTIK Thermally/electrically conductive films
LOCTITE® Conformal coatings
LOCTITE® ECCOBOND Chip on board (CIB) encapsulants
LOCTITE® ECCOBOND Underfill materials
LOCTITE® Surface mount adhesives (SMA)

Adhesive and engineering competence

As a global full-line supplier we offer our customers with our competence in adhesive technologies, application experience and testing facilities an excellent process and application support. Our specialists will advise you on-site and support you with our modern adhesive laboratories. We also impart extensive product and application knowledge to our customers through individual seminars and laboratory trainings.

QUALITY & SAFETY

ISO 9001 Quality management

ISO 14001 Environmental management

ISO 45001 Occupational health & safety

EN 9120 Distribution and repacking for aviation industry

EN 17460 Adhesive bonding of railway vehicles (laboratory)

ISO 21368 Quality requirements for adhesive bonding processes (laboratory)
