

**BODO MÖLLER
CHEMIE**

Take off with innovative solutions
for the aerospace industry

Structural adhesives and high

BODO MÖLLER CHEMIE is a long-standing partner of leading companies in the Aerospace industry and an authorized partner for Aerospace products from Henkel, Huntsman, Airtech and Virtek. This authorization includes extending Henkel warranty of products shipped from our location. Among the array of solutions, we can provide aerospace structural adhesives, potting materials, film adhesives and surface films, with options for lightning strike protection or without as well as laser projection systems and vacuum bagging materials.

Additionally, we are proud to offer the cutting-edge FST resin system tailored for RTM or infusion processes. Our structural adhesives, metal surface treatments and composites that serve the aircraft OEM and MRO industries are listed in over 5000 aerospace specifications. Our partners invest heavily in R&D and product support and have been world market leaders in these industries for over 50 years. Innovative materials provide our customers with practical, economic and performance benefits.

-performance materials

Aerospace products and technologies

Paste adhesives & specialty resins

One and two part epoxy paste adhesive systems for bonding, shimming, potting, fairing and repair

Moldable plastic shim

Specialty resins for RTM, wet lay-up and repair (FST)

Film adhesives, wet peel ply & lightning strike protection

Film adhesive & surfacing film for metal and composite bonding

Epoxy based surfacing film containing copper/aluminum screen

Engine nacelle bonding

Honeycomb applications for control surfaces, wing flaps, engine slats, leading edges and wing-to-body fairings

Syntactic products

Closed-cell expanding syntactic films for custom density-to-strength ratios in honeycomb core fill and core splice

Syntactic films for lightweight composite designs

Composite surfacing films for flawless off-tool composite surface and reduction of surface preparation steps prior to painting

Core splice adhesives

Foaming core splice adhesives

Epoxy or bismaleimide based versions available

Controlled expansion

Surface treatment products

Cleaners

Deoxidizers and etchants

Conversion coatings

Jet engine cleaners

Surface conditioners and sealers

Depaint/repaint

Mold release products

Semipermanent release coatings for composite and metal tool surfaces

Vacuum bagging & composite tooling materials

Vacuum bagging films

Release films

Peel ply

Breathers and bleeders

Sealant tapes

Pressure sensitive tapes

Vacuum valves and connectors

Resin infusion products

Mold release (non liquid)

Pressure pads and accessories

Customized vacuum bagging kits

Pre-cut, pre-sealed and customized multi-layered kits designed to fit specific measurements and material requirements

Laser projection systems

3D Vision Positioning System (VPS)

Our main technologies

Adhesives, surface treatments, composites*

Paste and film adhesives

FR/FST Adhesives, composites*

Served market

Commercial airplane, regional & business jets, airframes, MRO, engine nacelles

Military, Helicopters

Interiors

*Composites: Syntactic products, core splice adhesives, infusion & specialty resins, mold release products

Application technology center

With our **Adhesive Competence Center**, we offer full service in all matters related to adhesive application technology – from product selection all the way to product validation, process simulation and engineering data.

The Adhesive Competence Centers are certified for the designing of bonding joints according to ISO 21368 and EN 17460 and our Adhesive Laboratory has a Competence Approval for ISO 21368 and EN 17460. All measurements are carried out in accordance with international DIN, EN and ISO standards.

QUALITY & SAFETY

ISO 9001 Quality management

ISO 14001 Environmental management

ISO 45001 Occupational health & safety

ISO 21368 Quality requirements for adhesive bonding processes (laboratory)

EN 17460 Adhesive bonding of railway vehicles (laboratory)

EN 9120 Distribution and repacking for aviation industry

Certified: Germany, France, Switzerland, Italy, Israel, China, India, Mexico

In certification: Benelux, Spain, Poland, Sweden, Norway, Denmark, Czech, UK, Morocco, Turkey, UAE, South Africa, USA, Japan, Korea
