Flame retardants
for industrial applications

Flame retardant solutions

BODO MÖLLER CHEMIE is a specialist for flame retardants in many industrial areas, especially in the automotive, railway, aerospace, medical and electronic industries. Flame retardants suppress the flammability or retard the flammability of polymers for protecting people, property, and the environment. By adding it, it is possible to achieve a variety of fire protection classes and criteria, which are partly required for the use of plastics in certain applications.

Plastics in the electrical and electronics industry are increasingly demanding environmentally friendly flame retardant solutions. Halogen-free flame retardants are becoming increasingly important here.

With our **Flame Retardant Competence Center**, we offer application experience and testing facilities under one roof and guarantee profound processes and application support:

- **New solutions for new requirements**
- **Halogen-free and environmentally friendly products**
- **Synergistic experience**
- **Laboratory testing and evaluation**

Not all products are available in all countries. Please contact our sales representatives for more information.
